The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Minayoshi et al. 5494651.

The reference shows vaterite having the claimed size; see figs. 15 and 20 and also column 8.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Minayoshi.

The reference does not explicitly teach the claimed properties per se, however appears to possess them due to the pictures. The abrasion resistance of claims 4 and 5 are deemed met since the material is the same in composition and size. No differences are seen.

Claims 1-3 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-6, 10, 11 of U.S. Patent No. 6989142. Although the conflicting claims are not identical, they are not patentably distinct from each other because The patent overlaps the claims in the ranges, thus is prima-facie obvious. See In re Malagari 182 USPQ 549. With regard to claim 3, the variation of 'about' renders the claims patentably indistinct. See also In re Kirsch 182 USPQ 286. The pictures show aggregates.

Applicant's arguments filed 4/12/07 have been fully considered but they are not persuasive. Minayoshi depicts particles which are somewhat agglomerated; see figs. 15-20, even though it describes the product as non-agglomerated. Compared to the pictures of the present specification, no patentability is seen. Claim 1 should be 'previously presented'. There is no response to the ODP rejection, so the terminal disclaimer is awaited.

No IDS has been filed in this application. Applicant is reminded of their duty to disclose as set forth in the Oath/Declaration. Vaterite is admitted as known, and references thereto should be submitted; see specification pgs. 1-2. The Goffin reference was not withdrawn merely

or radifiber. Torr 17,51

because applicant argued that inherency was not present. The argument about Goffin is irrelevant in any case.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to examiner Hendrickson at telephone number (571) 272-1351.
